TAB-CUT CATALOGUES: FOR USER-FRIENDLY PUBLICATIONS.

Adding an index tab-cut (or 'step-cut') feature to your catalogues printing is a sure-fire way to make them even easier to flick through and will give your brand the edge when it comes to consumer choice.

In today's targeted and personalised world, you need to give your audience what it wants and needs in an easy, fuss-free way. Catalog Printing with index tab--you can easily split your catalogue or brochure into stepped sections so that your customers can quickly find what they're looking for. They'll instinctively turn to your catalogue as it saves them time when searching for a product.

Product Introduction of Catalog Printing with index tabs

What is catalogue printing with index tab?

In the index tab cutting process, a printed and bound catalogue or brochure has a small step cut out of the right-hand edge. This is done in sections and each section is stepped so as to make it easy for users to find what they need in your publication.

These stepped sections can be cut in a rectangular style as shown in our images as well as a semi-circle shape which is cut into the pages.

How can I use index tabbing?

These work best on a catalogue or brochure with multiple sections that need to be clearly identifiable and easily accessible. If you're a wholesaler selling into the building trade or supply products to tradesmen, this one is definitely for you.

If you want to make your buying process as easy as possible for your customer, talk to us for advice on how index tabbing can work for you.
